LILO of 220 kV C.B.Ganj (220kV) – Badaun (220kV) SC line at 400 kV Badaun substation	4.	LILO of 220 kV Chandausi (220kV) – Badaun (220kV) SC line at 400 kV Badaun substation	5.	132kV Badaun Ujhani – Badaun (400 kV) SC line And 132 kV Bilsa – Badaun (400 kV) SC line Note: Both the above 132 kV SC line shall be constructed as a combine double circuit line upto (i) 30 kms from 400 kV substation Badaun and thereafter separate single circuit line for Ujhani and Bilsa.	6.	2 Nos. 132 kV bays (one each at 132 kV substation Ujhani and Bilsa substations)	7.	2 Nos. 400 kV bays at Badaun for 13 th plan substations
S No.	Description of work (Name of substation / Line)																																																					
	Obra-C TPS (2x660 MW)																																																					
1	LILO of 765 kV Anpara 'D' Unnao SC line at Obra-C TPS																																																					
2	400 kV Double Circuit Jaunpur - Obra line (upto LILO point of Obra 'B' – Obra 'C' Line)																																																					
S No.	Description of work (Name of substation / Line)																																																					
	Badaun																																																					
1.	400/220/132 kV Badaun (GIS) substation (Capacity 2x315 + 2x160 MVA) with following additional bays: 400 kV – 2 Nos. 220 kV – 2 Nos. 132 kV – 2 Nos.																																																					
2.	400 kV DC Roza – Badaun line																																																					
3.	LILO of 220 kV C.B.Ganj (220kV) – Badaun (220kV) SC line at 400 kV Badaun substation																																																					
4.	LILO of 220 kV Chandausi (220kV) – Badaun (220kV) SC line at 400 kV Badaun substation																																																					
5.	132kV Badaun Ujhani – Badaun (400 kV) SC line And 132 kV Bilsa – Badaun (400 kV) SC line Note: Both the above 132 kV SC line shall be constructed as a combine double circuit line upto (i) 30 kms from 400 kV substation Badaun and thereafter separate single circuit line for Ujhani and Bilsa.																																																					
6.	2 Nos. 132 kV bays (one each at 132 kV substation Ujhani and Bilsa substations)																																																					
7.	2 Nos. 400 kV bays at Badaun for 13 th plan substations																																																					
S No.	Description of work (Name of substation / Line)																																																					
	Obra-C TPS (2x660 MW)																																																					
1	LILO of 765 kV Anpara 'D' Unnao SC line at Obra-C TPS																																																					
2	400 kV Double Circuit Jaunpur - Obra line (upto LILO point of Obra 'B' – Obra 'C' Line)																																																					
S No.	Description of work (Name of substation / Line)																																																					
	Badaun																																																					
1.	400/220/132 kV Badaun (GIS) substation (Capacity 2x315 + 2x160 MVA) with following additional bays: 400 kV – 2 Nos. 220 kV – 2 Nos. 132 kV – 2 Nos.																																																					
2.	400 kV DC Roza – Badaun line																																																					
3.	LILO of 220 kV C.B.Ganj (220kV) – Badaun (220kV) SC line at 400 kV Badaun substation																																																					
4.	LILO of 220 kV Chandausi (220kV) – Badaun (220kV) SC line at 400 kV Badaun substation																																																					
5.	132kV Badaun Ujhani – Badaun (400 kV) SC line And 132 kV Bilsa – Badaun (400 kV) SC line Note: Both the above 132 kV SC line shall be constructed as a combine double circuit line upto (i) 30 kms from 400 kV substation Badaun and thereafter separate single circuit line for Ujhani and Bilsa.																																																					
6.	2 Nos. 132 kV bays (one each at 132 kV substation Ujhani and Bilsa substations)																																																					
7.	2 Nos. 400 kV bays at Badaun for 13 th plan substations
